

April 2019

Dear Parent / Carer

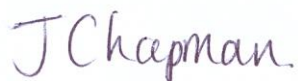

### **Year 8 Science - Sex and Relationships Education**

As part of the science curriculum in Year 8, we will cover a short module within Sex and Relationships Education (SRE). During the module, students will revise fertilisation, study the laws related to sexual activity, and explore relationship issues. Students will not study contraception and sexually transmitted diseases until Year 9. Students will be involved in guided discussions as well as having an opportunity to ask questions.

This module runs over a 2 week period and will be studied as part of the regular science sessions. It will begin on the week commencing Monday 13 May although this start date may vary for different science groups.

Should you require any further information, please do not hesitate to contact me.

Yours sincerely

A handwritten signature in purple ink that reads "J Chapman".

**Mrs Jenna Chapman**  
**Deputy Head for Science**
