

Key Stage 3 Revision Guides for Year 8 Students English, Maths and Science

Your child is in the process of completing their Key Stage 3 syllabus. In May 2019, your child will sit an examination in English, Maths and Science.

In order to help your child reach their full potential in these subjects, we are selling revision guides to students in advance of this date. Each revision guide covers content taught in sessions, has tips to help students understand what the examiners will be assessing and contains questions to fully prepare students for exams. The guide can therefore assist them throughout the year prior to the examination.

We are selling a Key Stage 3 Revision Guide Pack containing all three subjects for **£10**.

This item will be available for payment on ParentPay until Friday 29 November. Guides will then be issued to students who have paid.

These guides should be purchased as soon as possible to be used alongside homework tasks as well as revision for their end of Key Stage 3 assessments.

If you have any questions, please contact the relevant subject teacher.

Mr Pugh
Deputy Head for Key Stage 3
